

# Gratification to Concrete

Robert Pollard

She brings gratification to concrete  
Crown to the crucible complete  
Now is what she brings  
Now is what she brings  
Gratification to concrete  
Crown to the crucible complete  
Now is what she brings  
Now is what she brings And she said "wow" a hundred times  
Not just for people people  
Who move like vampires and realize  
That they are guilty  
At the stations generations  
Live like kings and queens tomorrow  
It's a blast it just won't last too long  
In my adventure of making two wrongs alright  
Now that you're laughing  
She don't treat people like they don't count  
No test to what they amount She brings gratification to concrete  
Crown to the crucible complete  
Now is what she brings  
Now is what she brings And go your days beyond your nights  
Positions passed at last and yet  
A presence tense, to whince  
Commence into a system gone haywire  
But let's say "wow" awhile and smile  
Until tomorrow  
It's a blast it just won't last too long  
In my adventure of making two wrongs alright  
Now that you're laughing  
She don't treat people like they don't count  
No test to what they amount Gratification to concrete  
Gratification to concrete  
Gratification to concrete
