

# Already In

[Jon McLaughlin](#)

It's you to me, it's your gentle face, overdue but worth the wait  
And out of my reach but I'm reaching out for you  
And me to the night, I say goodbye, this time is up, I fight the time  
A need an award, I can't afford it, a finished song, one more chord  
Already in my mind  
And I'm in over my head inside  
And it's already in my mind  
Inside, inside  
Now everyone back, my heart's at war with all these plans I had before  
I'm losing my grip but I'll lose it all for you  
So I go driving all around, I'm denying all these sounds that hit my ear  
Drum the beat of a heart I can't defeat  
So it's already in my mind  
And I'm in over my head inside  
And it's already in my mind  
Inside, inside  
Oh, let me in  
Let me in  
And it's already in my mind  
And I'm in over my head inside, inside  
And it's already in my mind  
Well inside, inside, inside, inside  
Inside, inside
