

# Just Like the Weather

Suzy Bogguss

The wind is blowing from a new direction  
If you're thinking 'bout going, I know  
It's been a long season, and hard on our affections  
But that's no reason to let go You change just like the weather  
But the weather you know will always change  
If you stay it'll get better  
Wherever you go it's bound to rain So put on your jacket and stand your ground  
Love's gonna have its highs and lows  
If we turn and face it, the wind will come around  
You don't have to chase it when it blows  
You change just like the weather  
But the weather you know will always change  
If you stay it'll get better  
Wherever you go it's bound to rain --- Instrumental ---  
You change just like the weather  
But the weather you know will always change  
If you stay it'll get better  
Wherever you go it's bound to rain You change just like the weather...
