

# Talk to Ya

HRVY

[Verse 1]

Girl, I know your more than just a number  
I know when I look into your eyes  
See I can love you more than any other  
I know you've been hot, I'll make it right[Pre-Chorus]  
I know it's hard to trust someone like me  
When it's my reputation that's first to speak  
I will make a promise I can keep  
'Cause I can give you somethin' that you never had before[Chorus]

I just wanna talk to ya, talk to ya  
Maybe I can mend your heart with mine  
I just wanna talk to ya, talk to ya  
Take it for my broken paradise  
You hit me like a way you've gotta pull me under  
Don't give me a chance to escape  
I just wanna talk to ya, talk to ya  
Take it for my broken paradise[Verse 2]

I know everybody if you want it  
I don't blame them, I don't trust myself  
But, this ain't just like any other morning  
And you ain't just like any other girl[Pre-Chorus]  
I know it's hard to trust someone like me  
When it's my reputation that's first to speak  
I will make a promise I can keep  
'Cause I can give you somethin' that you never had before  
[Chorus]

I just wanna talk to ya, talk to ya  
Maybe I can mend your heart with mine  
I just wanna talk to ya, talk to ya  
Take it for my broken paradise You hit me like a way you've gotta pull me under  
Don't give me a chance to escape  
I just wanna talk to ya, talk to ya  
Take it for my broken paradise[Chorus]  
I just wanna talk to ya, talk to ya  
Maybe I can mend your heart with mine  
I just wanna talk to ya, talk to ya  
Take it for my broken paradise
