

Star Whisperer

Tori Amos

Lost Star Whisperer
Where, where, where have you gone?
Lost Star Whisperer
Where your Cloud Ride has come
Why, oh why have you locked up your sky?
Night in the sky
Whisper me back to life
Night warns of an Eastern threat
North calls reinforcements from the West
Lost all reason guarded by the waves
Sing to life the Seven Lords of Time
Lost Star Whisperer
Send for your Cloud Riders to come
Why, oh why have you locked up your sky?
Night sky
Whisper me back to life
Then I heard you scream
From the other side of the mountain
I saw a you I didn't want to see
I heard you scream
From the other side of the mountain
[Musical interlude]
Then I heard you scream
From the other side of the mountain
You saw a me I didn't want to see
I heard you scream
From the other side of the mountain
Lost Star Whisperer
Where, where, where have you gone?
Forged out
Fire and Song
You, you worn
Eight shadows long
Why, oh why
Have you locked up your sky?
Night sky
Whisper me back to life
