

# Self vs. Self (feat. In Flames)

## Pendulum

If I struggle a lifetime  
What would my body be?  
An empty shell  
On what a demon fed! Could be a heavy burden  
To stay true to your words!  
Speak up!  
I wanna silence everything! If I got no plan  
Doesn't mean that I get what I want for free.  
If I got no meaning,  
Would you force me to a place where I make sense,  
'Cause nothing lasts forever...  
How do I get home?  
Everything revolves around me!  
If I can't find myself?  
It's so completely fake! How do I get home?  
Everything revolves around me!  
If even you can't help?  
Dark nights on my soul! I deny failure!  
I ignite!  
Woe is on my misery,  
She wins all their eyes! Realize what defies our fate!  
This is not me, this is me!  
So if I struggle a lifetime  
What good would that do?  
If I got a plan  
Doesn't have to stop the feeling inside.  
If I do make sense,  
Would you drag me down,  
'Cause nothing lasts forever... How do I get home?  
Everything revolves around me!  
If I can't find myself?  
It's so completely fake! How do I get home?  
Everything revolves around me!  
If even you can't help?  
Dark nights on my soul!
