

End of the World

Deap Vally

Come on everybody,
Listen up,
I said come on everybody,
Listen up,
There's no time like the present,
I said there's no time like the present,
To open up our hearts,
And let love shine in,
Come on take a breath now,
Cause there's too much time wasted, time spent hating,
Come on take a breath now,
Cause there's too much headaching,
Too much back breaking,
Come on take a breath now,
Cause there's too much name calling,
Tears are falling,
Come on take a breath now,
Cause life's too short and this drumming's exhausting
There's a thing I like to call it, brother,
When you fight and you kill,
You're at war with each other,
It's the end of the world,
It's the end of the world,
There's a thing I like to call it, sister,
When you hate and you judge,
And you can't love each other,
It's the end of the world,
It's the end of the world,
It's the end
Of the world
Hate
Is a parasite
Yes, hate,
Will eat us alive,
If we let it,
No, we won't let it,
Come on take a breath now,
Cause there's too much time wasted,
Time spent hating,
Come on take a breath now,
Cause there's too much headaching,
Too much back breaking,

Come on take a breath now,
Cause there's too much name calling,
Tears are falling,
Come on take a breath now,
Cause life's too short and this drumming's exhausting,

...

There's a thing I like to call it, brother,
When you fight and you kill,
You're at war with each other,
It's the end of the world,
It's the end of the world,
There's a thing I like to call it, sister,
When you hate and you judge,
And you can't love each other,
It's the end of the world,
It's the end of the world,
It's the end

Of the world
There's a thing I like to call it, brother,
When you fight and you kill,
You're at war with each other,
It's the end of the world,
It's the end of the world,
There's a thing I like to call it, sister,
When you hate and you judge,
And you can't love each other,
It's the end of the world,
It's the end of the world,
There's a thing I like to call it, brother,
When you fight and you kill,
You're at war with each other,
It's the end of the world,
It's the end of the world,
There's a thing I like to call it, sister,
When you hate and you judge,
And you can't love each other,
It's the end of the world,
It's the end of the world,
It's the end
Of the world
