Tongues (feat. Kopps)

Joywave

Pick me up, Dust me off Give me breath, And let me cough Drag me back, Collect my thoughts I've come back to the land i'd lostThe palms are down, I'm welcomed back to town Sometimes i feel like they don't understand me I Hear their mouths making foreign sounds Sometimes i think they're all just speaking tonguesTell me all the things i've missed Who's been killed and who's been kissed (Drag me back, Collect my thoughts) I'll be gone when the drugs wear off The palms are down, I'm welcomed into town Sometimes i feel like they don't understand me I Hear their mouths making foreign sounds Sometimes you'd think they spoke another languageThe palms are down, I'm welcomed into town Sometimes i feel like they don't understand me I Hear their mouths making foreign sounds Sometimes i think they're all just speaking tongues They say i'm the only one, Who can be brave That i am the chosen one But There's no way, That I am the only one And there's no one to save If there's nowhere for them to runThe palms are down, I'm welcomed into town Sometimes i feel like they don't understand me I Hear their mouths making foreign sounds Sometimes you'd think they spoke another language The palms are down, I'm welcomed into town Sometimes i feel like they don't understand me I Hear their mouths making foreign sounds Sometimes i think they're all just speaking tonguesThey're all just speaking tongues Song Discussions is protected by U.S. Patent 9401941.
