Strangers

Eric Roberson

Strangers be, become friends Fall in love ... love ... Strangers be, become friends Fall in love ... love ... We're just, strangers again We're just, strangers again We're just, strangers again We're just, strangers again Met this chick about a year ago What I love about her, she has so much soul Plus a mind that my mind would like And even pops said about her is out of control We... up this... I could have seen nothing going wrong Through we was good then all of a sudden She and I ... hear the reason Strangers be, become friends Fall in love ... love ... Strangers be, become friends Fall in love ... love ... We're just, strangers again We're just, strangers again We're just, strangers again We're just, strangers again Come on We're just, strangers again We're just, strangers again We're just, strangers again We're just, strangers again Stranger comes along, catch ears and eyes ... back and smile, wait for reply Friends... If I knew I would have hurt my friend I might not even try Is what you know Is when you see her out with her girls She just walks right by Strangers be, become friends Fall in love ... love ... Strangers be, become friends Fall in love ... love ... We're just, strangers again

We're just, strangers again

We're just, strangers again We're just, strangers again

Come on

We're just, strangers again

We're just, strangers again

We're just, strangers again

We're just, strangers again

Now see I prefer, so just take it slow

When... the thing we fall...sometimes... just wrong

... still believe in love

Strangers be, become friends

Fall in love ... love ...

Strangers be, become friends

Fall in love ... love ...

We're just, strangers again

We're just, strangers again

We're just, strangers again

We're just, strangers again

Tell me, what did we ...

We're just, strangers again

We're just, strangers again

We're just, strangers again

We're just, strangers again

Strangers be, become friends

Fall in love ... love ...

Strangers be, become friends

Fall in love ... love ...

We're just, strangers again

We're just, strangers again.
