

Only One

5am

You the only one I give my drugs too
You the only one I give my love too
You the one I kiss and I give hugs too
You the one I fuck and I make love too She don't fuck around with the fuck arounds
She gone loose her mind when I come in town
That's my little baby, I don't play around
If it's about shawty, yeah it's going down
She don't even know what it cost yet, yeah
To be with me, kick it with a boss yeah
Bad lil bih, she a star yeah (yeah)
All these other hoes ain't up to par yet, yeah
You the only one I give my drugs too
You the only one I give my love too
You the one I kiss and I give hugs too
You the one I fuck and I make love too She don't fuck around with the fuck arounds
Cops come around she hold the gun down
If they ask about me she don't make a sound
She the one I call when it's something down
She don't even know what it cost yet, yeah
To be with me, kick it with a boss, yeah
Bad lil bih, she a star yeah, yeah
All these other hoes ain't up to par yet, yeah
You the only one I give my drugs too
You the only one I give my love too
You the one I kiss and I give hugs too
You the one I fuck and I make love to
