

Cherry Hearts

The Shins

You're not wanting anybody wants in you
I get it, all is fair
But I've been biting all my cherry hearts in two
You don't even care Won't you ever come down from the big rock I found you climbing
Stowing your diamonds away You kissed me once
When we were drunk
It left me spinning on my heels
Call the devil for a deal You kissed me once
When we were drunk
My head went rolling on the floor
Past the window, out the door
Once I said it I knew I wouldn't regret it too
It's just too much to share
Now you're fading, sailing into the night
To the boy who wasn't there I'm a practical guy
Sometimes I do fly off the handle
Thinking in scandalous ways, I've never done time
But I've done the crime of wanting
Something that never could stay You kissed me once
When we were drunk
It left me spinning on my heels
Call the devil for a deal You kissed me once
When we were drunk
And now I'm nervous when we meet
I got nothing under my feet
You kissed me once
When we were drunk
It left me spinning on my heels
Called the devil for a deal You kissed me once
When we were drunk
My head went rolling on the floor
Past the window, out the door
