

# Let Go for Tonight

## Foxes

Fell from the sky  
We fell from the sky and started walking  
Leavin' our footprints on the ground It might be a prayer  
Or maybe a piece of conversation  
Wherever we go we make a sound So I call your name, the only thing I know  
Is I need you here, will you be gone forever?  
All that I know, all that I know is we're here tonight  
Turn off the lights Let go for tonight baby  
Let love in your life and be shown (turn off the lights)  
Let go for tonight baby, who needs sleep tonight?  
I need to let go, let go  
Let go, let go, turn off the lights  
Let love in your life baby, who needs sleep tonight?  
I wanna drive  
I wanna drive into the open  
Lookin' for reasons I can't find So I call your name, the only thing I know  
Is I need you here, will you be gone forever?  
All that I know, all that I know is we're here tonight  
Turn off the lights Let go for tonight baby  
Let love in your life and be shown (turn off the lights)  
Let go for tonight baby, who needs sleep tonight?  
I need to let go, let go  
Let go, let go, turn off the lights  
Let love in your life baby, who needs sleep tonight? I need to let go, let go  
Let go, let go  
I need to let go, let go  
Before we're gone, gone, gone  
So I call your name, the only thing I know  
Is I need you here, will you be gone forever?  
All that I know, all that I know  
Is I need you here, will you be gone forever? (Turn off the lights)  
Turn off the lights  
Let go for tonight baby  
Let love in your life and be shown (turn off the lights)  
Let go for tonight baby, who needs sleep tonight?  
I need to let go, let go  
Let go, let go, turn off the lights  
Let love in your life baby, who needs sleep tonight?  
Let go, let go  
Let go, let go  
I need to let go, let go  
Before we gone, gone, gone

Fell from the sky  
We fell from the sky and started walking  
Leavin' our footprints on the ground
