Flor

Are you near me?
I can feel you near me
I can feel you close
Are you with me?
Please say you're with me
I can't be alone
Can't be my selfish nature
Can't be my sin
Are these feelings i long for
Best left unsaid?

...

You can read me
Oh I know you read me
You get in my head
I won't keep it
I won't keep it to myself
You've won again
Can't be my selfish nature
Can't be my sin
Are these feelings i long for
Best left unsaid?

Nothing hurts when you hide away
Let 'em in and they'll bring the pain
But something about you feels okay
Comfort can't help me grow up anyways

...

Can't be my...

...

Best left unsaid
Left unsaid
Can't be my selfish nature
Can't be my sin
(Can't be my...)
Are these feelings i long for
Best left unsaid?
(Left unsaid?)
Best left unsaid?
