

# Corners of the Earth (feat. RY X)

## ODESZA

Tonight we run  
We run into the sun  
We run into the corners of  
The love we choose to make Tonight we show  
We show where we belong  
The places I have never been  
The places we are strong Tonight we're golden  
We fall towards each other  
We fall to the edges of the earth  
We burn tonight as one Tonight we run  
Through love we never knew  
Our love to everyone  
We love tonight for love  
We're golden  
We're golden  
We're golden  
We're golden
