Corners of the Earth (feat. RY X)

ODESZA

Tonight we run We run into the sun We run into the corners of The love we choose to makeTonight we show We show where we belong The places I have never been The places we are strongTonight we're golden We fall towards each other We fall to the edges of the earth We burn tonight as oneTonight we run Through love we never knew Our love to everyone We love tonight for love We're golden We're golden We're golden We're golden Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
