Exit

[Stateless](#)

Waiting for your [Incomprehensible]
Waiting for your [Incomprehensible]
Waiting for your [Incomprehensible]
Waiting for your [Incomprehensible]I'm spiraling down, I've been inside too long
I gotta get outside, breathe again
Deliver me because the walls are closing in
I gotta get out, so I can see againWhat is done cannot be undone
What is done cannot be undoneExit this phase, this phaseI'm going insane living with this weakness
A storm is ahead, I need the rain upon my face
I like the disturbance, let's bring it all crashing down
At least I feel somethingWhat is done cannot be undone
What is done cannot be undone
Exit this phase, this phase
