

Love and Affection

Pressure

Da-da-da-da-a-a-aa
Whoa-o-o-o-oo
It's Pressure Let me give you some love and affection
You got my attention
You need no correction
May Jah pour blessings in your direction
You've got my attention
What an impression So long I've been waiting
To be with you all alone
I've been anticipating
The first time we kissed was breathtaking
And girl, we got a bright future in the making
When we are together
My heart feels so much better
Girl, I need you and that's no lie
Whenever that we make love
I breath Jah-Jah take cause
And I'm so glad that I made you mine
Keep that precious smile on your face
Jah will keep you warm and safe
Make it worthwhile
Just you and I
With love the Most High creates
Let's start a family and make things great
Cause when and how we met Girl
It's not a mistake
Let me give you some love and affection
You got my attention
You need no correction
May Jah pour blessings in your direction
You've got my attention
What an impression There's something about her
I just can't be without her
(Never had a woman like you)
Never had a woman of such virtue
Oh-I'll give you my love
Girl, I got no intentions to hurt you, hurt you Stay close to me
Don't slip away
With the romance we made
Wherever I go you will follow
I'll keep you warm and safe
Make sure the children have health and strength

Cause when I say " I love you"
That's what I meantLet me give you some love and affection
