

# Warm Water (Snakehips Remix)

## Banks

Looking you over and you don't know my name yet  
But by the time you looked away, already knew I couldn't fake it I got this need for you,  
forming in my beating heart  
I knew the meaning right away, we only yesterday were worlds apart I think I may love you  
If you give me some time  
Maybe you'll love me too I got this thing for you  
If you come closer I can whisper in your ear  
And if you wanna walk away  
I'll tell you all the things I know you wanna hear  
I'll come closer to you  
If you come over  
I know we'll go farther  
Farther with you  
With you i'm in warm water swimming down I think I may love you  
If you give me some time  
Maybe you'll love me too I'll come closer to you  
If you come over  
I know we'll go farther  
Farther with you  
With you i'm in warm water swimming down  
I'll come closer  
To you if you  
Come over  
I know we'll go farther  
Farther with you  
With you i'm in warm water swimming down
