Still in Love

Jason Chen

I feel the same way
That you did about me yesterday

Promised you'd never leave me alone

The castles that we madeWere swept by the tide and washed away And now the sunsets have all goneNow time is moving, faster than before

And now we cant even seem to find the shore

Cause baby I know that you still love me

And baby know that I love you too

So tell me why cant we make it better

Cause all that I know is found in you

I'm missing your love, I'm missing your face

All of our past, don't let it erase

Iknow that you still feel the way I do

Because I'm still in love with you

I wanted to move on

But unlike you, I'm not that strongAnd now our day in the sun has set We walked side by sideLeaving footprints in the sand now only my footsteps remain (Whenthe tide rolls in)

Now time is moving, faster than before

And now we cant even seem to find the shore

Cause baby I know that you still love me

And baby know that I love you too

So tell me why cant we make it better

Cause all that I know is found in you

I'm missing your love, I'm missing your face

All of our past, don't let it erase Iknow that you still feel the way I do

Because I'm still in love with you

If I had just one more life

If I had just one more day

You would be my whole world

Be the only one I adore and

The next time, I hold you close

I won't hesitate no more

Cause baby this time

We're gonnafly high

And I will never let you go

Cause baby I know that you still love me

And baby know that I love you too

So tell me why cant we make it better

Cause all that I know is found in you

I'm missing your love, I'm missing your face

All of our past, don't let it erase Iknow that you still feel the way I do

Because I'm still in love with you Still in love with you Still in love with you Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
