

Come With Me (feat. Mque)

Black Coffee

Feeling the pain
That's lost in scars
inside your soul
Talking to brutes
And suits about
How they would fall We find a day,
Where all we say,
We find a day,
Come with me babe, Come lay with me
Inside my dreams
Of future paths,
Come sing a song
And see the world
Inside my head,
Let's find a day,
Where all we say,
Let's find a day,
Come with me babe, You set my world,
You set my world,
On fire, hey
You set my world,
You set my world,
On fire
You set my world,
You set my world,
On fire, hey Come with me
Let's reside
Come with me
This love is blind
We find a day
Where all we say
We find a day
Come with me babe We find a day
Where all we say
We find a day
Come with me babe You set my world
You set my world on fire
You set ny world
You set my world on fire
Hey!
You set myworld
You set my world on fire

You set my world
You set my world on fire
Hey, Hey, Hey You set my world...
On fire...
You set my world...
On... fire...

You set my world...
