Half Light (feat. Tom Cane)

Wilkinson

This is our time They go fearless shine As the dawn brings The world wakes Catch you in my eye Nothing can touch Where we've been tonight As the sun moves to cross you Standing in our half light (In the half light) We go home What we feel tonight (What we feel tonight) (We go home) What we feel tonight In the half light (We go home) What we feel tonightThis is our time They go fearless shine As the dawn brings The world wakes Catch you in my eye Nothing can touch Where we've been tonight As the sun moves to cross you Standing in our half lightIn the half light (We go home) What we feel tonight In the half light (We go home) What we feel tonight (What we feel tonight) (We go home) (What we feel tonight) This is our time They go fearless shine As the dawn brings The world wakes

Catch you in my eye
Nothing can touch
Where we've been tonight
As the sun moves to cross you
Standing in our half light
In the half light
(We go home)

What we feel tonight
In the half light
(We go home)
What we feel tonight
