

The First Christmas (feat. Zach Williams)

Tenth Avenue North

No room in the end
No toys by the tree
No lights, no presents, no snow, no bing
The first Christmas (that first Christmas)
The first Christmas (that first Christmas)
Yeah, but we finally got what we need
The first Christmas (that first Christmas) Alright
Oh come now
Alright, let me tell you a little story
In a dirty little stable in Bethlehem
Mary and Joseph had nothing
But the light of the world came down from the heavens
The shepherds and the magi came a-runnin' just to meet him
Hallelujah, the angels sing
That first Christmas
No stockings on the mantle
Parades or movies
No Santa, no cookies, no office parties
The first Christmas (that first Christmas)
That first Christmas (that first Christmas)
But the world, we got what we need
The first Christmas (that first Christmas) Saxophone!
Come on Zach
Yeah
Come on guitars
No special cup from Starbucks
Or shopping online
But with Jesus in the manger
They were doing just fine
The first Christmas (that first Christmas)
That first Christmas (that first Christmas)
Cause we finally got what we need
The first Christmas (that first Christmas) Yeah we finally got what we need
The first Christmas
