

# Light

Ben Lee

You were the one that brings the weather  
You were a dream I've had forever  
You know exactly what I'm wishing  
Your gonna love me in to submission Feelings I had  
while at your feet  
those kinds of things I can't repeat  
Your gonna fill the world with light. You put the point in exclamation  
You took a day to build a nation  
Your gonna teach me how to live  
Your gonna teach me how to give  
Feeling i had  
Well who could say  
I could explain them anyway  
Your gonna fill my world with light  
Your gonna fill my world with light
