

# Ivory Black

## Oliver Riot

Crumble my bones, we like the road  
Hold you like cold, cold as a stone  
I came to see what you don't believe  
And you don't believe in me  
Suffering sweet like sickness scar to a left  
She's my witness starting to crack  
Something save me, free my past  
Ivory black  
Hold you like cold, all by my own  
Crumble my bones, hold up this road  
I came to see what you don't believe  
And you don't believe in me  
Suffering sweet like sickness scar to a left  
She's my witness starting to crack  
Something save me, free my past  
Ivory black  
I wanna be loud like wild life  
Half to wear a glass  
Warm like the sunshine kissing my back  
Drive me crazy I like about that  
Ivory black  
Closer you turn, soul's taking turn  
Suffering sweet like sickness scar to a left  
She's my witness starting to crack  
Something save me, free my past  
Ivory black  
I wanna be loud like wild life  
Half to wear a glass  
Warm like the sunshine kissing my back  
Drive me crazy I like about that  
Ivory black
