

Five Days (feat. Big Youth & Mr. Cheeks)

Tarrus Riley

Love is what the world needs plenty of.
we dont need no sorrow we dont need no tears.
In a lifetime.
In a lifetime...
Yes we met on the sidewalk before sunset started to rain she didnt wanna get wet.
I offered her a ride and she gladly did accept.
She said she dont smoke she dont drink.
So watch her step, leave her on the corner not her doorstep.
Can i have your number she says wait a sec, if im gonna call i gotta come correct.
A reason a season or lifetime.
The seasons now cos the reasons death.
The doctor says she only got 5 days left in her lifetime.
Shes living out her life to the fullest, she dont have any time for any stress.
