

# Electrico Romantico (feat. Robbie Williams)

Bob Sinclar

Everybody's got to be automatic  
In your electrico romantico  
Try to find head way through the static  
Got to get myself some peace  
Nobody wants that grief, come on You and me, yeah  
We gonna find a way  
And you need me, so  
Unplug yourself, let go of the electrico romantico I don't wanna leave without you anyway  
Nobody does it better  
I don't wanna leave without you anyway  
Nobody does it better than me You only live online  
Unplug yourself, let go, come be a friend of mine  
I keep your tan alive  
The waters warm and beautiful, just come outside  
You and me, yeah  
We gonna find a way, yeah  
And you need me, so  
Unplug yourself, let go of the electrico romantico I don't wanna leave without you anyway  
Nobody does it better  
I don't wanna leave without you anyway  
Nobody does it better than me (Swipe left, swipe right) In your heart  
(Swipe left, swipe right) In your soul  
(Swipe left, swipe right) Get off  
(Swipe left) Your phone  
(Swipe left, left, left) In your heart  
(Swipe right, right, right) In your soul  
(Swipe left, left, left) Get off  
(Swipe right, right, right) Your phone, come on  
I don't wanna leave without you anyway  
Nobody does it better  
I don't wanna leave without you anyway  
Nobody does it better than me
