

If Only She Knew Voodoo Like I Do

Get Scared

I'm so nervous it shake the fingertips that are coursing through your hair.
With those lovely lips that are made to kiss oh you put me in a spin.
You've got a body of a goddess
You've got the moves that make me sweat
You've got a voice that makes me breathless.Girl I've got you
Under a spell and I don't think ill be letting you out.
I've got you!

If this is heaven then baby I don't want to know hell.She says my singing gets her thinking filthy
The thoughts shes thinking I know I'm not worthy.
I know what I need to sweep her off her feet
She knows the work will damn near kill me.
Girl I've got you
Under a spell and I don't think ill be letting you out.
I've got you!

If this is heaven then baby I don't want to know hell.Girl I've got you
Under a spell and I don't think ill be letting you out.
I've got you!

If this is heaven then baby I don't want to know hell.Girl I've got you
I've got youShe makes me weak at my knees.
Take me!
Take me!
She cant resist me
She's just what i need
She makes me so weak at my knees.
At my knees.
Girl I've got you
Under a spell and I don't think ill be letting you out.I've got you under a spell
Girl I've got you
Under a spell and I don't think ill be letting you out.
I've got you!

If this is heaven then baby I don't want to know hell.
Girl I've got you
Under a spell and I don't think ill be letting you out.
I've got you!

If this is heaven then baby I don't want to know hell.
If this is heaven then baby I don't want to know hell.
