

# Disappear

## Cavo

Can you tell me where to go, it's killing me and no one knows,  
Inside with all this mind, we waste the sunlight waiting for the night  
They don't wanna break me down; they don't wanna break away from you  
Everything's wrong now, everyone's gone now,  
I can't keep lying to myself  
Cuz everything's clear now they disappear now  
Cuz they don't wanna stay with you Can you tell me where to go its killing me and no one  
knows,  
Inside with all this mind, you waste the sunlight waiting for the night  
They don't wanna break me down; they don't wanna break away from you  
Everything's wrong now, everyone's gone now,  
I can't keep lying to myself  
Cuz everything's clear now, they disappear now  
Cuz they don't wanna stay,  
I shouldn't be waiting for this life  
Maybe another dream won't die  
They can't be the first and be the last to break away They don't wanna break me down; they  
don't wanna break away from you  
Everything's wrong now, everyone's gone now,  
I can't keep lying to myself  
Cuz everything's clear now they disappear now  
Cuz they don't want to stay with you  
Everything's wrong now, everyone's gone now,  
I can't keep lying to myself  
Cuz everything's clear, now they disappear now  
Cuz they don't want to stay with you.
