

Gold (feat. Jake Reese & DJ Whoo Kid)

Dash Berlin, DBSTF & Waka Flocka Flame

Got me losing control
Like a fool, like I'm mad
Cuz I'm caught in the middle with you
Want it all, want it bad
Need it more than a little It's getting realer, Yeah I'm ready for your crazy
Take mi high, lift me up till I'm faded
I know you're poison but I gotta gotta taste it
(taste it)
Ohuho Yeah You burn on my skin
But I'm in love with your chemicals
My good side is losing
Yeah we go hard like we're animals
Ooh tonight we're making gold
Watch how we glow
You burn on my skin
But I'm in love with your chemicals I'm in love with your chemicals Ooh tonight we're making
gold
Watch how we glow
Ooh tonight we're making gold
Watch how we glow Step up in the party like me halluh
If you ain't livin' Then you dyin' that's my motto
The sun goes down (you know)
The moon come up (yuh)
Everybody gets lit (we lit)
And the Room fills up (Yeah)
All the money that I made
don't compare to these memories
Let's live a life with no enemies
It's the purest from of living free
WAKA They say that I'm lost
I don't care, I don't mind
If I go down I'd rether be high
If this is bad, I don't wanna be better It's getting realer, Yeah I'm ready for your crazy
take me high, lift me up till I'm faded
I know you're poison but I gotta gotta taste it
(taste it)
Ohuho Yeah You burn on my skin
But I'm in love with your chemicals
My good side is losing
Yeah we go hard like we're animals Ooh tonight we're making gold
Watch how we glow
You burn on my skin

But I'm in love with your chemicals
I'm in love with your chemicals
Ooh tonight we're making gold
Watch how we glow
Ooh tonight we're making gold
Watch how we glow
Watch how we glow
Watch how we glow
