

# Currents Change

Dillon

When thoughts diverge into a search  
With time lose sight of what is right  
And with the tide new answers rise  
Restlessly I listen  
When answers merge and thoughts converge  
With time, lose sight of what is right  
And with the tide, new questions rise  
Restlessly I listen  
The endless hissing of the sea  
Currents change constantly  
The endless hissing of the sea  
Currents change constantly  
The endless hissing of the sea  
Currents change constantly  
The endless hissing of the sea  
Currents change constantly  
The endless hissing of the sea  
Currents change constantly  
The endless hissing of the sea  
Currents change constantly  
The endless hissing of the sea  
Currents change constantly  
The endless hissing of the sea  
Currents change constantly  
The endless hissing of the sea  
Currents change constantly  
(The endless hissing of the sea  
Currents change constantly  
The endless hissing of the sea)
