

# Complex Con (feat. Conway the Machine)

## Consequence

[Intro: Sample]

"I like what's going down"[Intro: Consequence]

Yeah, yeah, yeah, yeah, yeah

See they won't understand 'cause it's complex, Con[Hook: Consequence]

This?for every kid?who put his projects on

And did?what he did to get his progress on

Even if they had to take the context wrong

See they won't understand 'cause it's complex, Con

It's complex, Con

They won't understand 'cause it's complex, Con

[Verse 1: Consequence]

You know what I got engraved on the gold yard

It said, "until I hit my grave, I'ma go hard"

'Cause you know how many times I had a broke heart

'Cause a chick wasn't trying to hear the broke part

That's that, you're better off without me

'Cause only rapping I'ma ever doing is Ratajkowski

I slept on [?] and I hate cold floors

So I ain't get this hot just to get cold sores

Or to have close scores, or to have closed doors

Ever get in my way or end up feeling my page

So save the lip service for Angela and them

Every time I'm on the web like tarantulas and them

I'ma catch another body, call an ambulance for them

Yeah the Grammy Family's back, bring the laminas for them

'Cause every time I went in, it never went wrong

But when you're going for the win, it's complex, Con

[Hook: Consequence]

This for every kid who put his projects on

And did what he did to get his progress on

Even if they had to take the context wrong

See they won't understand 'cause it's complex, Con

It's complex, Con

They won't understand 'cause it's complex, Con[Verse 2: Conway]

Yeah

I said it's complex, Con

Any beat you give me, I'ma bomb threat on

Running through your project with my tec drawn

Body, I'll push some metal objects on him

I used to make mine stretch, my pies stepped on

Now I get rap money and my checks long

Huh, you could say that God blessed Con

Shot in the back of my head and my neck  
But I just trusted the process and I kept going  
Good on any fucking block I stepped on  
Now I see a million, I don't be excited  
It's complex, Con  
I heard your new shit, I ain't even like it  
I knew the shit was trash, I should be a psychic  
Look at my neck, now you're seeing ices  
Machine, bitch, he the nicest  
Hoo[Bridge: Conway]  
It's complex, Con  
It's complex, Con  
It's complex, Con  
It's complex, Con[Hook: Consequence]  
This for every kid who put his projects on  
And did what he did to get his progress on  
Even if they had to take the context wrong  
See they won't understand 'cause it's complex, Con  
It's complex, Con  
They won't understand 'cause it's complex, Con
