

Sugar in Your Gas Tank

Less Than Jake

If I had a scheme for everything,
It seems that I'd be sure
that I can change it all, it all, it all, it all,
If I had it in me,
to stop my random thoughts,
and my dumb dreams
I could deal with this nonstop spinning world.
If only I could say that everything's ok
take a good look
and look the other way,
frustration, hell, who needs it, who needs it anyway?
If I had it in me,
to stop my random thoughts and my dumb dreams
I could deal with this nonstop spinning world
yea this nonstop spinning world
yea this nonstop spinning world
I'd rather sit back,
just smoke cigarettes.
be the one with the loudest mouth
be the most closed minded
as I could get
and just smoke cigarettes
be the one with the loudest mouth
I'm the most close minded as I could get
as I could get
as I could get
If I had a sceme for everything
it seems I'd be sure
I could change it all
it all (x5)
If I had it in me,
to stop my random thoughts and my dumb dreams,
I could deal with this nonstop spinning world,
yea this nonstop spinning world,
yea this nonstop spinning world,
yea this nonstop spinning world
