Hell On Wheels

Fu Manchu

Cut yourself off from the pack Flat out against the freaks There's nothin' they won't try Hot head - heavy foot they meet It's been so many days And we tried every way We knew of a Masterplan So put the keys in my handIn my hand x2 At a time when you would think All of a sudden it hits the streets As they're swappin' the big block Slow-motion - time has stopped El Camaro never dies Look closely you'll know why Outrun 'em you know we can So put the keys in my hand In my handChorus: Hell On Wheels is no big deal Road burnin' all across the land Hell On Wheels is no big deal Takin' 'em out of the Masterplan An idea whose time has come A land ride for everyone Been like this for years on end We'll let you know where and when As he splits the road in two

Lyrics provided by http://www.1songlyrics.com/

Underdrive we never knew
Ourun 'em you know we can
So put the keys in my handIn my handChorusIn my hand X8
