

# Nowhere to Run

## From Ashes to New

I feel it coming on, something is changing us  
And when the sun goes down, we've got nowhere to run  
Into the night when the shadows in my  
head come out to play  
Not gonna fight 'cause I know that there is no way to escape  
Black out the sun, I've come undone, my thoughts are racing  
They're out for blood, can't get enough, can't get enough  
I see what I'm becoming, as a part of  
me now  
Pacing, I can't shake this  
I tell myself it's nothing, but I know deep down  
No matter what I do, it's gonna find a way out  
I feel it coming on, something is changing us  
And when the sun goes down, we've got nowhere to run  
I feel it coming on, the dark before the dawn  
And when the sun goes down, we've got nowhere to run  
Paralyzed by the creatures that are creeping in my mind  
And I won't hide 'cause I know they're gonna find me every time  
Black out the sun, I've come undone, my thoughts are racing  
They're out for blood, can't get enough, can't get enough  
I see what I'm becoming, it's a part of  
me now  
Caving, I can't take this  
I'm trying not to hold it 'cause I know deep down  
No matter what I do, it's gonna find a way out  
I feel it coming on, something is changing us  
And when the sun goes down, we've got nowhere to run  
I feel it coming on, the dark before the dawn  
And when the sun goes down, we've got nowhere to run  
I tell myself it's nothing, but I know  
deep down  
No matter what I do, it's gonna find a way out  
I feel it coming on, something is changing us  
And when the sun goes down, we've got nowhere to run  
I feel it coming on, the dark before the dawn  
And when the sun goes down, we've got nowhere to run  
We've got nowhere to run
