

# All I Ask of You (feat. Penny)

[Skrillex](#)

In comes the dawn,  
I've fallen asleep with my head pressed against your flaws,  
All my love,  
And something got in the way,  
And your soul turned black as the sun grows somber,  
Took my heart, and my love (and my love) All I ask of you (all I ask of you)  
Just open up a little bit more (Just open up a little bit more)  
All I ask of you Just open up a little bit more (Just open up a little bit more) Just open up a little  
bit more (Just open up a little bit more) Just open up a little bit more (All I ask of you) (Just  
open up a little bit more) (All I ask of you)  
(Just open up a little bit more) All I ask of you Just open up a little bit more (Just open up a  
little bit more)  
All I ask of you Just open up a little bit more (Just open up a little bit more) Just open up a little  
bit more (Just open up a little bit more) Just open up a little bit more Open up a little bit more  
All I ask of you, all I ask of you  
Just open up a little bit more (Just open up a little bit more)
