

# Needle and Thread

[Richard Thompson](#)

(Richard Thompson) I see young girls with old faces  
I see good girls in bad places  
I see plain girls in finery  
And every one be the death of me Needle and Thread, Needle and Thread  
Hand me down my Needle and Thread  
Hey Hey Hey  
Hey Hey Hey  
Going to thread up my needle and then  
Gonna sew my soul back together again  
Now pretty Caitlin she went too far  
Shaking all she had at the topless bar  
Right in the face of Ben and Bob  
Put a little too much into the job Now sweet Myfanwe she took a shine  
Dumped me for Dai worked down the mine  
I was a temp, Dai was a keeper  
He knew how to dig that little bit deeper  
Now Bonnie Jean meant everything  
But she threw back my hard-earned ring  
Said she had other men who dig her  
She was holding out for something bigger
