Take Over Control (Radio Edit) [feat. Eva Simons]

Afrojack

Take Over Control

AfrojackI want you to take over control

Take take take over control

Plug it in and turn me onLet's go take a ride in your car

I will take the passenger seat

Baby, we don't have to go far

Unless you wanna show

Me a lovely place out of town

Where you feel most at ease

Well you are the one that I like

Always will be think it's time to let you know

Know the way I feel when you take hold

And You set me free, my body's yours

It feels the best when you're involvedI want you to take over control

Plug it in and turn me onMusic##I want you to take over control

Plug it in and turn me on Baby, baby, can't you see?

That I'm giving all of me

So, it's up to you now

We could let time pass away

I'll make an excuse to play

But, it's up to you nowJust wanna fulfill your needs

While you're taking over me

So, what do you want now?

Take a picture, make a show

Cause nobody has to know

All the ways that we get down

I want you to take over control

Take over control

Take take take over control

Oh oh oh, I want you to take over control

Plug it in and turn me onOh, oh whoa oh

Oh, oh whoa ooh oh

Plug it in and turn me on
