

# There Goes the Neighborhood

Chris Webby

Yeah, see I've been grinding for a long time man  
But I'm here now, there goes the neighborhood I guess, huh  
You see I'm here to save the day with this music  
Grinding to the point I think I'm really gonna loose it  
But I won't lose nothing,  
They trying to step to me but shit you think you could do better with it homie  
Then go and do something, ah  
They trying to tell me I'm crazy, but shit I'm crazy good  
Step into your city, they sayin' there goes the neighborhood  
The sale signs go up as soon as I show up  
They building bomb shelters cause they know I'm gonna blow up, ah  
Bright future, they say I'm a ticking time bomb  
Until I'm up on MTV, waving saying hi mom  
Grab your video cameras and get your night calms  
Making history from the second they flip the lights on  
I made it off being business savy and street smart  
Who needs a co sign, I let the beats talk  
I don't need another rapper lending help  
Telling listen to some dope cause shit, I tell him that myself  
I'm just playing what I'm dealt, shit it's been a long road  
But I got a lot under my belt and I felt  
At times it was a lost cause  
But I always got back upon my paws dog  
So I know I'm gonna make it in the long haul  
Shit it's now or never homie, I cannot stall  
So I'm gonna reach out for the stars and I pray for the best  
And that's how it's gonna be until the day of my death, word  
Just play in, tune in to this music  
Have no fear, I save the day with this music  
My city on my back, and I'm a take it wherever I go  
Wherever I go, wherever I go, wherever I go  
Say hello to the new guy in town  
There goes the neighborhood, it's what they say This is 12 years in the making, far from  
immediate  
But now it's time to sink my teeth in it,  
I'm on my beastly shit, cause I'm sick as fuck  
You don't believe me bitch, then go ahead and spit that semen on a petri dish  
You need sterilizer just to give me dap  
Unless you want your immune system attacked, real rap  
I'm not doing no duggy, these fucking idiots should drop the swag and take notes  
Cause they can learn something from me  
This is all I do man murder instrumentals

With this fire off the top like sweet tooth in twisted metal  
I'm spitting rebel with a cause, deadly with the bars  
Underdog since day one, wasn't expecting your applause  
I respect your damn opinion, if you don't like my music  
But if you don't respect my hustle, then you ain't paying attention  
I pay so many fucking dudes my wallet's empty  
Ain't a person here stopping Webby, motherfucker  
Just play in, tune in to this music  
Have no fear, I save the day with this music  
My city on my back, and I'm a take it wherever I go  
Wherever I go, wherever I go, wherever I go  
Say hello to the new guy in town  
There goes the neighborhood, it's what they say. Fucking animal, Webby's the Serengeti type  
They whipping Lambos, but I made it on a pedal bike  
Not even Gatorade replenishes electrolytes  
I burn, going nuts from the fucking second I get the mic  
I'm the grittiest grimiest and the wittiest, yeah  
Jack the ripper to the beats I'm getting busy with, yeah  
And half these rapper idiots ain't even literate  
I'm battle tested and ready, Webby a young Odysseus  
Fire in my eyes and I hunger for success  
I'm hunting for the title, while they hunting for a check, yeah  
Wondering what is next, but I'm going in fists swinging  
Till your ears ringing, they don't expect what this kids bringing  
Though if you didn't notice, so homie just don't provoke it  
I got my state on my shoulders, till I'm getting scoliosis  
Never gonna stop, my life is like the script of vertical limit  
Motherfucker I'm getting to the top Just play in, tune in to this music  
Have no fear, I save the day with this music  
My city on my back, and I'm a take it wherever I go  
Wherever I go, wherever I go, wherever I go  
Say hello to the new guy in town  
There goes the neighborhood, it's what they say.
