

# Monsters Ball

## Butcher Babies

Ladies and Gentlemen, children of all ages  
Step right up and get your tickets to the greatest show on earth  
Where you'll witness death defying feats and acts of whisky Guzzling debauchery  
I wanna see you So get the fuck up! It's high noon when you step into the pit  
It's a monster's ball and their digging a ditch  
For the sunburnt the weary, the ones who won't last  
In this cyclone of flesh with this cathartic mix When the broken limbs are leading the match  
It's the ring masters itch we're amassed to scratch  
With the crack of the whip the carnies rush in to devour  
The beast that beats on drums of flesh  
Blistered embattled  
You fall to submission  
To complete the mission  
You rally and rise Slack-jawed and entranced your torched by the sun  
You've caught the fever  
The day's just begun to burn. Ya! No you can't stop moving  
No you can't stop moving  
No you can't stop  
This monster's ball  
Can't stop moving  
No you can't stop moving  
No you can't stop  
This monster's ball  
Hey you there in the neo-thrash prog math whatever metal shirt  
And cut off jeans trying to sneak away don't leave yet  
The best part of the show is just about to begin  
It's not over till the pretty ladies scream! So get the fuck up! Brothers in arms we shake our devil  
sticks  
Together as we climb walls of jagged bones together  
As you float away on a bed a callused hands  
With the crest in sight now it's time to go Over the edge, you take a decadent fall  
Behind the velvet rope you join the men on stilts  
The juggler winks and throws you a ball  
Before you know it you're part of it all No you can't stop moving  
No you can't stop moving  
No you can't stop  
This monster's ball  
Can't stop moving  
No you can't stop moving  
No you can't stop  
This monster's ball Ladies and Gentlemen  
Step right up and get your tickets

To the greatest show on earth We've never felt this free  
When I'm stepping blindly  
Cause we've never been so free  
My Acrobatic Army Ladies and Gentlemen Can't stop moving  
No you can't stop moving  
No you can't stop  
Can't stop moving  
No you can't stop moving  
No you can't stop Can't stop moving  
No you can't stop moving  
No you can't stop Can't stop moving  
No you can't stop moving  
No you can't stop No you can't stop moving  
No you can't stop
