

One More Shot

Russ

We locked eyes from a distance, yeah, yeah, yeah, yeah, yeah
I think I know what's missing, yeah, yeah, yeah, yeah, yeah Falling in my lap, don't know who
to thank, I want her to deep dive

Tell her walk the plank, off the strength she gon' do it
Rich off music, maybe I should go home, maybe I should lose it
Gotta move up to celebrity girls

No bluffin', I would never bet on these girls

David Ruffin hit her with that raspy shit

She respond with that Janet Jackson nasty shit, yeah All I need is one more shot, yeah
To take me away

I'm way too close to stop, yeah

I can't stop now

I just can't get enough, yeah

Come give it to me, give it to me

I just can't give you up, yeah

Come give it to me, give it to me

We locked eyes from a distance, yeah, yeah, yeah, yeah, yeah
I think I know what's missing, yeah, yeah, yeah, yeah, yeah She don't know why like Nori Jones
While she fallin' for me, off the aura alone

I got more in the phone, I could call 'em if your feet cold

Young, rich and handsome, that's a motherfuckin' cheat code, yeah All I need is one more shot,
yeah

To take me away

I'm way too close to stop, yeah

I can't stop now

I just can't get enough, yeah

Come give it to me, give it to me

I just can't give you up, yeah

Come give it to me, give it to me I can't relate if you're tryna get me to ease up, ease up

One more shot on me, girl, follow the leader, leader

We been touchin' on each other way too long, let's tee up, Free up

You know what I know, this night ain't gon' end here

All I need is one more shot, yeah

To take me away

I'm way too close to stop, yeah

I can't stop now

I just can't get enough, yeah

Come give it to me, give it to me

I just can't give you up, yeah

Come give it to me, give it to me

All I need is one more shot, yeah

To take me away

I'm way too close to the top, yeah
I can't stop now
I just can't get enough, yeah
Come give it to me, give it to me
I just can't give you up, yeah
Come give it to me, give it to me
All I need is one more shot, yeah
To take me away
I'm way too close to the top, yeah
I can't stop now
I just can't get enough, yeah
Come give it to me, give it to me
I just can't give you up, yeah
Come give it to me, give it to me
