

I Only Lie When I Love You

Royal Blood

I only lie when I love you
I only crawl when I hit the ground
You only cry when I love you
I only lie when I make a sound
Go ahead muck about
I got my conscience twisted
Pull your hair
Make me shout
It's just that you insisted I was good for nothing
Like you were onto something
I only lie when I love you
I only crawl when I hit the ground
You only cry when I love you
I only lie when I make a sound
I only lie when I
I only lie when I
I only lie when I
I only like when I only lie when I love you
I only crawl when I hit the ground
You only cry when I love you
I only lie when I make a sound
Go ahead pull the plug
Broken finger, sticky finger
Now I can't get it off my chest
And now I'm wishing you were someone else
You know I'm up to something
Diagnosed, no disease
Got a suspicion
But you just can't find it up your sleeve
And now I beg the truth be told
From someone else
All of that fuss for nothing
I only lie when I love you
I only crawl when I hit the ground
You only cry when I love you
I only lie when I make a sound
I only lie when I
I only lie when I
I only lie when I only lie when I love you
I only crawl when I hit the ground
You only cry when I love you
I only lie when I make a sound
