

Hell of a Year

Parker McCollum

Its been a hell of a year
How did you see
Who i was and who i was gonna be
I could've been right was probably wrong
So many nights wishing I could go home
Its been a hell of a year
Its been a hell of a year
Now my hearts out of love
I fell out of line
I swore that i'd never leave again and I lied
It was the weight of the world
You setting me free
You can't sleep alone and you ain't
sleeping with me
Its been a hell of a year
Its been a hell of a year
You hate how I live
Go up to come down
I smoke you away and then you drink
'til you drown
I wasn't meant to be then it ain't meant to be now
I love this home but now I hate this house
Its been a hell of a year
Its been a hell of a year
Its been a hell of a year
How did you see that who I was and who i was gonna be
I could've been right was probably wrong
So many nights wishing I could go home
Its been a hell of a year
Its been a hell of a year
