

# Come Running

Van Morrison

By the side of the tracks where the train goes by  
The wind and the rain will catch you, you will sigh  
    Deep in your heart  
    Then you'll come a-running to me  
You'll come a-running to me Well you watch the train go 'round the bend  
    Play in dust and dream that it will never end  
    Deep in your heart  
    You'll come a-running to me  
    You'll come a-running to me  
    Said, hey, come a-running to me  
    Oh, come a-running to me  
    Hey, yeah, come a-running to me  
    Said, hey, come a-running to me  
    Oh, come a-running to me  
Hey, yeah, come a-running to me With your hound dog by your side  
    And your arms stretched out open wide  
I wanna keep you satisfied in the morning sun  
    By my side, come on, come on run  
And you kick the sand up with your heels  
    You think to yourself how good it feels  
    Put away all your walking shoes  
    Then you come running to me  
    Now you come running to me  
    I said, hey, come a-running to me  
    Oh, come a-running to me  
Hey, yeah, come a-running to me You gotta rainbow if you run to me
