

Details (feat. Boy Matthews)

Oliver Heldens

She work in the morning
All through the weekend
She got her own lane
Roll like the 45
Chasing a dollar sign
Like no one I ever seen
She my Wonder Woman So I say, "Take a second, take it slow"
But she just wanna keep control all the time
I say, "Lay it back, get comfortable"
I let her know, I let her know Don't worry 'bout the details
Baby, take your time, I got you tonight
Don't you worry 'bout the details
I know what you like, put your hand in mine
Don't you worry 'bout the
Details
Details
Don't you worry 'bout the
Details
Details
Don't you worry 'bout the She like the fast life
Don't let it pass by
Keep me on my toes
Like no one I ever known
The highlight in every room
She fight for you, never lose
And that's why I love her so "Take a second, take it slow"
But she just wanna keep control all the time
I say, "Lay it back, get comfortable"
I let her know, I let her know
Don't worry 'bout the details
Baby, take your time, I got you tonight
Don't you worry 'bout the details
I know what you like, put your hand in mine Don't you worry 'bout the
Details
Details
Don't you worry 'bout the
Details
Details Don't worry 'bout the details
Baby, take your time, I got you tonight
Don't you worry 'bout the details
I know what you like, put your hand in mine

Don't worry 'bout the
