

# Solar System

## Crystal Fighters

I wanna give you devotion  
I wanna give you a place  
To release your feelings  
A starbeat rhythm with a standard healing  
A word and a message with a lot of emotion  
With total dedication and a lot of devotion  
And a lot of devotion I wanna give you devotion Well, let's start here  
At the beginning of my lyric  
To be too bad to rhyme is not a merit  
To rock, to roll, to soul is what I aim for  
Wait till I hit the goal  
And that's a top score  
Some of these are long, others with an ease  
To write me rhyme in line  
Ooh, that's a cool breeze  
And on and on till you get the job done  
And the job is really done  
I wanna give you devotion Total dedication and a lot of devotion  
Well, magical moments, moments are magical  
Star-call mystical, logical, lyrical  
Magical moments are meant to be kept  
Don't erase them from your brain, I need to inject  
I have a dream, there's a nightmare inside me  
It's getting me uptight for the sight is a fright  
'cause night creeps in creeping, creeping, slowly  
Gassing, frightening, spooky  
'cause a frightning nightmare terrorise  
Poll tax came and up went the rise  
Open your eyes and realise  
I'm a trully disguise  
Like hawk, the slayer, he came and courted  
Maggie came, but now she's slaughtered I wanna give you devotion  
So don't use, abuse or lose, you're a flotex  
Rock the mike to the disc  
And don't get upset  
Rhyme in time for the finest quality  
That's the time when you know you're an M.C.  
M.i.k., double e, take it down, Mikee  
M.i.k., double e I wanna give you devotion  
We're gonna take it down  
Take it down, take it down, mikee  
Take it down, take it down, take it down, Mikee

Down, Mikee

Take it down, take it down, take it down, Mikee  
Down Mikee, m.i.k., double e, double e I wanna give you devotion, I wanna give you devotion  
Total dedication and a lot of devotion  
I wanna give you devotion, I wanna give you devotion  
Huh-uuh, I wanna give you devotion, I wanna give you devotion  
Total dedication and a lot of devotion  
I wanna give you devotion, huh-uuh Why don't you come for me?  
Come for me, come for me now  
Come for reason, come for the sound  
Come for me, why don't you come for me?  
Why don't you come for me? come for me  
Because I, I'm an entertainer, I'm an entertainer  
Come for me, I'm an entertainer, I'm an entertainer  
I'm an entertainer, I'm an entertainer, come with me  
I'm an entertainer, I'm an entertainer  
Some for the lyrics black  
Some are heart attack  
Well, some of the lyric  
Some are fast and some are like that  
The best of the ones are easy  
Come to the microphone  
I'm just another cool breeze  
ain I wanna give you devotion  
Total dedication and a lot of devotion  
I wanna give you devotion  
Total dedication and a lot of devotion  
I wanna give you devotion  
Total dedication and a lot of devotion  
I wanna give you devotion, huh-uuh  
Total dedication and a lot of devotion  
I wanna give you devotion  
Total dedication and a lot of devotion
