

Blind

Placebo

If I could tear you from the ceiling
And guarantee a source divine
Rid you of possessions fleeting
Remain your funny valentine Don't go and leave me
And please don't drive me blind
Don't go and leave me
And please don't drive me blind If I could tear you from the ceiling
I know best have tried
I'd fill your every breath with meaning
And find a place we both could hide
Don't go and leave me
And please don't drive me blind
Don't go and leave me
And please don't drive me blind You don't believe me
But you do this every time
Please don't drive me blind
Please don't drive me blind I know you're broken
I know you're broken
I know you're broken If I could tear you from the ceiling
I'd freeze us both in time
And find a brand new way of seeing
Your eyes forever glued to mine
Don't go and leave me
And please don't drive me blind
Don't go and leave me
And please don't drive me blind
Please don't drive me blind
Please don't drive me blind
Please don't drive me blind
Please don't drive me blind
