

# Love Is the Boss (Benny Benassi Radio Edit)

STEFANO GAMMA

can not see, those playing but not for me  
this life, see how the love  
ought to be run  
it took me nights and days to get over  
get control of my tools  
ruling the one, love had to show me one thing I was so right, so right  
caught in the stormy ocean upside down  
and I was so sure, so sure  
then love got me, who was, who was the boss  
I defy, anyone who claim that I  
didn't control whatever moved in my soul  
I wanna try, reach the light  
just because you fell for me  
why should I feel up tight  
love had to show me one thing I was so right, so right  
caught in the stormy ocean upside down  
and I was so sure, so sure  
that love got me, who was, who was the boss I wanna try, reach the light  
just because you fell for me  
why should I feel up tight  
love had to show me one thing  
i was so right, so right  
caught in the stormy ocean upside down  
and i was so sure, so sure  
that love got me, who was, who was the boss
