

# Got Me Started

TINI

I remember what you said  
I can't get you out my head  
Every night's a crazy party  
I don't wanna wake up from it. I feel you like a hurricane  
A perfect song inside my brain  
You should hear the things you say  
(You should hear the)  
Every word makes me insane  
(Every word makes me insane) We can't stop once we get started  
Baby, you got me started  
Even though you're so far away  
I'm feeling you on my body.  
We can't stop once we get started  
Baby, you got me started  
Even though you're so far away  
I'm feeling you on my body. Oh, yeah  
Oh, yeah  
Once we get started Oh  
Once we get started  
Oh, oh  
Once we get started I could fix your lonely pain  
Close your eyes and think of me  
I could be your ecstasy (I can be your)  
Magic power in your veins. (Ha, ha)  
We can't stop once we get started  
Baby, you got me started  
Even though you're so far away  
I'm feeling you on my body. We can't stop once we get started  
Baby, you got me started  
Even though you're so far away  
I'm feeling you on my body. Oh, yeah  
Oh, yeah  
Once we get started Somewhere where we more than just a fantasy  
There'll be no more hide and seek.  
And if you want me I'm only a blink away  
Close your eyes and look for me 'Cause your love  
Is keepin' me close  
Your love  
Is keepin' me up  
Your love  
Is keepin' me going  
Your love

Is keepin' me high  
Somewhere where we more than just a fantasy  
Close your eyes and look for me  
Oh, yeah  
Ohh  
Ohhhh  
Yeah

We can't stop once we get started  
Yeah

Baby you got me started  
Even though you're so far away  
I'm feeling you on my body  
We can't stop onve we get started  
Baby you got me started  
Even though you're so far away  
I'm feeling you on my body  
We can't stop once we get started  
Ohh

Even though you're so far away  
I'm feeling you on my body  
We can't stop once we get started  
Baby you got me started.
