

Out of My Mind

John Mayer Trio

I'm putting you, baby
I'm putting you right out of my mind
I'm putting you, baby
I'm putting you right out of my mind So tired of running after you, girl
And being one and one half steps behind
Go and tell your friends now
Go tell your friends what johnny did
Go tell your friends
go tell your friends just what johnny did
If they don't tell you that your crazy, baby
Lord, they're as messed up as you is
Lemme play my guitar, people
Lemme play my guitar, people
I'm putting you
I'm putting you, baby
I'm putting you out of my mind
My, my, my
I'm putting you, I'm putting you, I'm putting you, I'm putting you, I'm putting you, I'm putting
you
right out, right out of my mind, right out, right out of my mind
Ooh, right out of my mind
Sometimes I'm running right after you
And being one and one half steps, being one and one half steps
Being one and one half steps behind
