

Church

Coldplay

What I can tell you when I'm with you I'm walking on air
Watching you sleeping there, yeah
What can I get through, for everyone everywhere?
Yeah, answering everything When you're riding a wave, oh won't you ride that wave to me?
When you're setting yourself, oh can I be seventeen?
When you're riding a wave, when you're riding a wave Cause when I'm hurt, then I'll go to your
church I'll worship you in church, baby, always
I'll worship you in church, all the seven days
I'll praise and praise
